- Reproductive health decisions
 - Gender identity
 - Pregnancy

TAKING A STAND

- Resolution passed on:
- Support for anti-discrimination policies
 - Opposition to crisis pregnancy centers
 - Support for abortion coverage
 - Pro-choice stance on legislation or ballot initiatives
 - Opposition to sex-selective abortion bans

SPOTLIGHT: Expanding LARC Access in Clinics

Recognizing that long-acting reversible contraceptives (LARC) are highly effective but that many patients are unfamiliar with them, the Richmond City Health District (RCHD) launched the LARC Initiative, a patient education program, in July 2016. Counselors were able to provide all patients with non-coercive counseling that raised awareness about the effectiveness of LARCs and debunked myths about its safety, resulting in a 5% increase in uptake in one year. Reports showed that clients traveled to RCHD from neighboring counties specifically for the LARC program, demonstrating a clear need to make the full range of contraceptive methods more accessible across the state.
